# GUARDA

WORK HARD. BREATHE EASY.

# Guarda Vacuum Generator

## Features & Benefits

- Can replace 3 separate pieces of equipment – generator, vacuum & water pump
- Quick & easy to set up
- Can remove exhaust fumes, and cutting waste and provides a pressurised water supply (available as an option) all in one tool
- Ideal for use where there is no external power source or pressurised water supply
- Especially suitable for civil works and wet cutting operations in remote locations
- Can be used in conjunction with the Guarda Fume Tube and Guarda Edge Powercutter to remove fumes when cutting indoors or in enclosed spaces (Note: The Guarda Vacuum Generator should always be placed outdoors)
- Can be used with dry cutting operations where a hepa filter is placed in the vacuum line
- Can be used to vacuum slurry where a knockout pot is placed in the vacuum line
- Engine complies with EPIII & CARB I emission standards
- Lightweight and compact
- Continuous operation 24/7
