- Capacity: 90 litre
- Power: 2 x 1000 watt motor/Amperage 10 amp
- Airflow: 160L/sec
- Vacuum suction: 250mbar
- Size: 680mm x 600mm x 140mm
- Weight: 34kg

GUARDA EXHAUST VACUUM HOW IT WORKS

Power cutter exhaust fumes get removed through the exhaust port and down the 50mm/2" Guarda hose.*

*(Always place hose end outside in a well ventilated area)

The silica dust & slurry get captured in 90 litre reservoir.

Silica dust, fume & slurry get sucked away from powercutter through vacuum hose.

WARNING

Read the operating procedures and warnings before using this product.

The end of the exhaust hose must be placed outside in a well ventilated area.
